

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listing of claims, in the Application.

Listing of claims:

1. (Currently amended) A method of making links that are not easily identified in a displayed Web document by a user to be clearly recognizable comprising:

displaying the Web document in a browser, the Web document having a plurality of embedded links and the browser including a highlight button ~~which when asserted highlights~~ for highlighting the plurality of embedded links in the displayed Web document;

enabling the user to assert the highlight button to highlight the plurality of links embedded in the Web document; ~~and~~

parsing the displayed Web page for the plurality of embedded links in response to the user asserting the highlight button;

duplicating the plurality of embedded links found in the displayed Web document in response to parsing the displayed document;

displaying the plurality of duplicated embedded links into a box wherein each link in the box corresponds to a link in the embedded Web page; and

highlighting a particular embedded link ~~the plurality of embedded links~~ in the Web document when a cursor is placed over a duplicated link in the

- box, the duplicated link corresponding to the particular embedded link in response to the user asserting the option.
2. Canceled.
  3. (Previously presented) The method of Claim 1 wherein highlighting the particular link includes having the particular link ~~the plurality of embedded links flash to highlight the links.~~
  4. (Previously presented) The method of Claim 1 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed in a different color to highlight the links.~~
  5. (Previously presented) The method of Claim 1 wherein the highlighting the particular link includes displaying the particular link ~~plurality of embedded links are displayed using a larger font to highlight the links.~~
  6. (Previously presented) The method of Claim 1 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed using a different font to highlight the links.~~
  7. (Previously presented) The method of Claim 1 wherein highlighting the particular link includes emboldening the particular link ~~the plurality of embedded links are emboldened to highlight the links.~~
  8. (Previously presented) The method of Claim 1 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed using an enlarged font and enlarging a the links target area in which the particular link is displayed enlarged to highlight the links.~~

9-11. Canceled.

12. (Currently amended) A computer program product on a computer readable medium for making links that are not easily identified in a displayed Web document by a user to be clearly recognizable comprising:

code means for displaying the Web document in a browser, the Web document having a plurality of embedded links and the browser including a highlight button ~~which when asserted highlights~~ for highlighting the plurality of embedded links in the displayed Web document;

code means for enabling the user to assert the highlight button to highlight the plurality of links embedded in the Web document; ~~and~~

code means for parsing the displayed Web page for the plurality of embedded links in response to the user asserting the highlight button;

code means for duplicating the plurality of embedded links found in the displayed Web document in response to parsing the displayed document;

code means for displaying the plurality of duplicated embedded links into a box wherein each link in the box corresponds to a link in the embedded Web page; and

code means for highlighting a particular embedded link ~~the plurality of embedded links~~ in the Web document when a cursor is placed over a duplicated link in the box, the duplicated link corresponding to the particular embedded link ~~in response to the user asserting the option.~~

13. Canceled.
14. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes having the particular link ~~the plurality of embedded links flash to highlight the links.~~
15. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ in a different color to highlight the links.
16. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes displaying the particular link ~~plurality of embedded links are displayed~~ using a larger font to highlight the links.
17. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ using a different font to highlight the links.
18. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes emboldening the particular link ~~the plurality of embedded links are emboldened~~ to highlight the links.
19. (Previously presented) The computer program product of Claim 12 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ using an enlarged font and enlarging a the links target area in which the particular link is displayed ~~enlarged to highlight the links.~~

20-22. Canceled.

23. (Currently amended) An apparatus for making links that are not easily identified in a displayed Web document by a user to be clearly recognizable comprising:

means for displaying the Web document in a browser, the Web document having a plurality of embedded links and the browser including a highlight button ~~which when asserted highlights~~ for highlighting the plurality of embedded links in the displayed Web document;

means for enabling the user to assert the highlight button to highlight the plurality of links embedded in the Web document; ~~and~~

means for parsing the displayed Web page for the plurality of embedded links in response to the user asserting the highlight button;

means for duplicating the plurality of embedded links found in the displayed Web document in response to parsing the displayed document;

means for displaying the plurality of duplicated embedded links into a box wherein each link in the box corresponds to a link in the embedded Web page; and

means for highlighting a particular embedded link ~~the plurality of embedded links~~ in the Web document when a cursor is placed over a duplicated link in the box, the duplicated link corresponding to the particular embedded link ~~in response to the user asserting the option.~~

24. Canceled.

25. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes having the particular link ~~the plurality of embedded links flash to highlight the links.~~

26. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed in a different color to highlight the links.~~

27. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes displaying the particular link ~~plurality of embedded links are displayed using a larger font to highlight the links.~~

28. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed using a different font to highlight the links.~~

29. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes emboldening the particular link ~~the plurality of embedded links are emboldened to highlight the links.~~

30. (Previously presented) The apparatus of Claim 23 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed using an enlarged font and enlarging a the links target area~~ in which the particular link is displayed ~~enlarged to highlight the links.~~

31-33. Canceled.

34. (Currently amended) A computer system for making links that are not easily identified in a displayed Web document by a user to be clearly recognizable comprising:

at least one memory device for storing code data; and

at least one processor for processing the code data for displaying the Web document in a browser, the Web document having a plurality of embedded links and the browser including a highlight button ~~which when asserted highlights~~ for highlighting the plurality of embedded links in the displayed Web document, for enabling the user to assert the highlight button to highlight the plurality of links embedded in the Web document, ~~and for parsing the displayed Web page for the plurality of embedded links in response to the user asserting the highlight button, for duplicating the plurality of embedded links found in the displayed Web document in response to parsing the displayed document, for displaying the plurality of duplicated embedded links into a box wherein each link in the box corresponds to a link in the embedded Web page, and for highlighting a particular embedded link~~ the plurality of embedded links in the Web document when a cursor is placed over a duplicated link in the box, the duplicated link corresponding to the particular embedded link ~~in response to the user asserting the option.~~

35. Canceled.

36. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes having the particular link ~~the plurality of embedded links flash to highlight the links.~~

37. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ in a different color ~~to highlight the links.~~
38. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes displaying the particular link ~~plurality of embedded links are displayed~~ using a larger font ~~to highlight the links.~~
39. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ using a different font ~~to highlight the links.~~
40. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes emboldening the particular link ~~the plurality of embedded links are emboldened~~ ~~to highlight the links.~~
41. (Previously presented) The computer system of Claim 34 wherein highlighting the particular link includes displaying the particular link ~~the plurality of embedded links are displayed~~ using an enlarged font and enlarging a the links target area in which the particular link is displayed ~~enlarged to highlight the links.~~

42-45. Canceled.
